Professional Summary

Software Developer skilled in HTML, CSS, JavaScript, and AI-assisted application development. Experienced in building responsive web applications, integrating APIs, and creating user-friendly interfaces. Seeking an entry-level Software Developer role to contribute to innovative and scalable software solutions.

Training

Python Programming Training GeeksforGeeks | 6 Months

- Learned Python fundamentals, OOP, File Handling, Exception Handling, and Data Structures.
- Solved coding problems and developed small Python-based applications.
- Applied programming concepts for automation and logical problem solving.
- Developed mini projects using Python to strengthen practical programming and application development skills.
- Gained experience in writing clean, maintainable, and modular code following programming best practices.

Projects

NexusURL – AI Enhanced URL Shortener QR Code Generator HTML, CSS, JavaScript, Java, Spring Boot, MongoDB

- Developed a responsive URL shortening platform with QR code generation functionality.
- Integrated REST APIs for URL shortening, analytics, and QR code generation.
- Utilized AI-assisted development tools such as ChatGPT and GitHub Copilot to improve code quality and accelerate development.
- Designed a scalable architecture capable of supporting future AI-based URL classification and intelligent analytics.
- Implemented responsive user interfaces and optimized user experience across devices.

BruteShield – AI Powered Password Security Analyzer HTML, CSS, JavaScript, Python, Flask

- Developed an AI-enhanced password strength analysis and password recommendation application.
- Evaluated password security using entropy analysis, character diversity checks, and pattern recognition techniques.
- Generated secure and personalized password suggestions based on industry-standard security practices.
- Provided real-time password strength scoring with instant feedback and improvement recommendations.
- Built interactive frontend components using JavaScript for dynamic user experience and validation.
- Integrated Flask backend with secure password handling and SHA-256 hashing techniques.

Education

Bachelor of Technology – Computer Science & Engineering 2022 – 2026

Lovely Professional University, Punjab
CGPA: 6.62

12th (Science) – D.A.V Public School, Bokaro Steel City 2021 – 2022

Percentage: 62.6%

Skills

Programming: Python, SQL

Frontend: HTML5, CSS3, JavaScript

Backend: Spring Boot, Flask, REST APIs

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Docker

Core CS: OOPs, DBMS

AI Tools: ChatGPT, Claude, GitHub Copilot

Soft Skills: Communication, Time Management, Problem Solving, Adaptability

Certifications

- Cloud Computing – NPTEL (2025)
- python programming – GeeksforGeeks
